BLENDED LEARNING TRACKING PHOTO EXAMPLES

The photo examples here are organized by content provider, but keep in mind that these tracking examples can be adapted to any content provider that you are using.
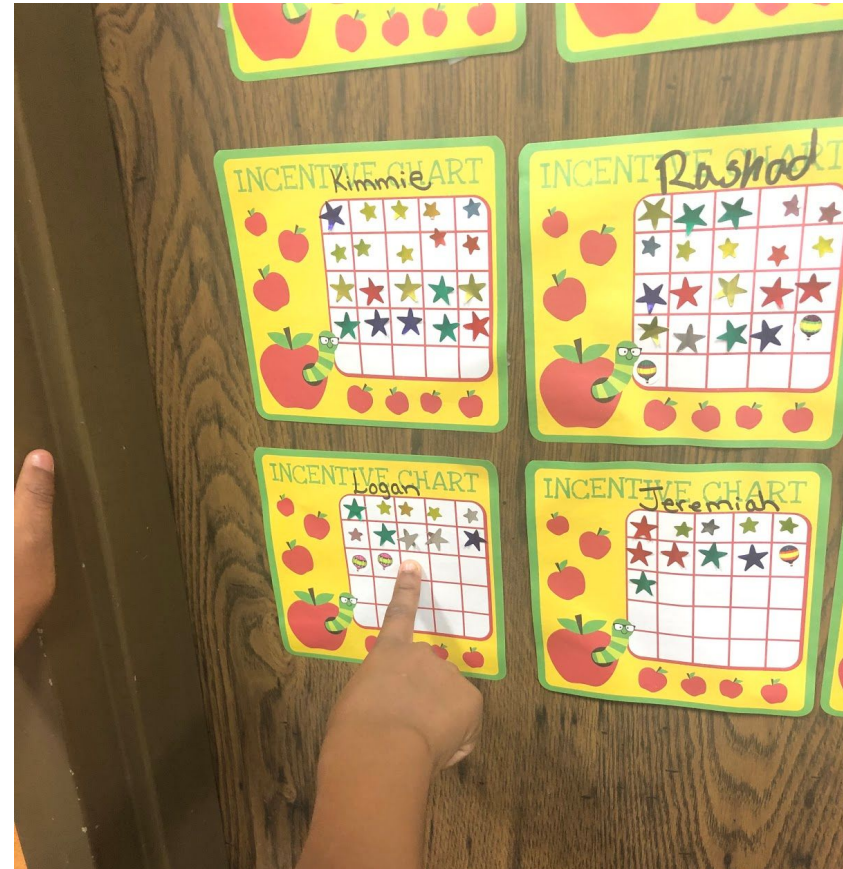

iReady

iReady Lesson Tracker – Students mark off each lesson they pass with an "X" and fill in a star for lessons passed with 100 percent
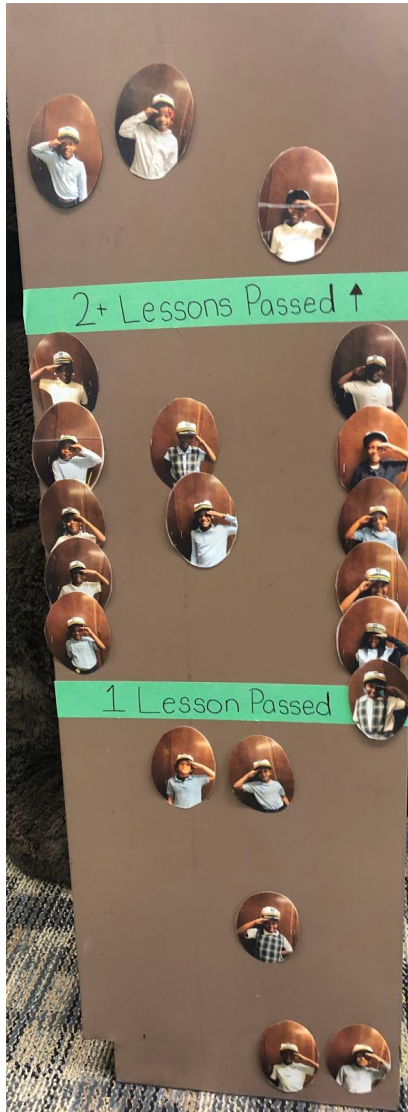

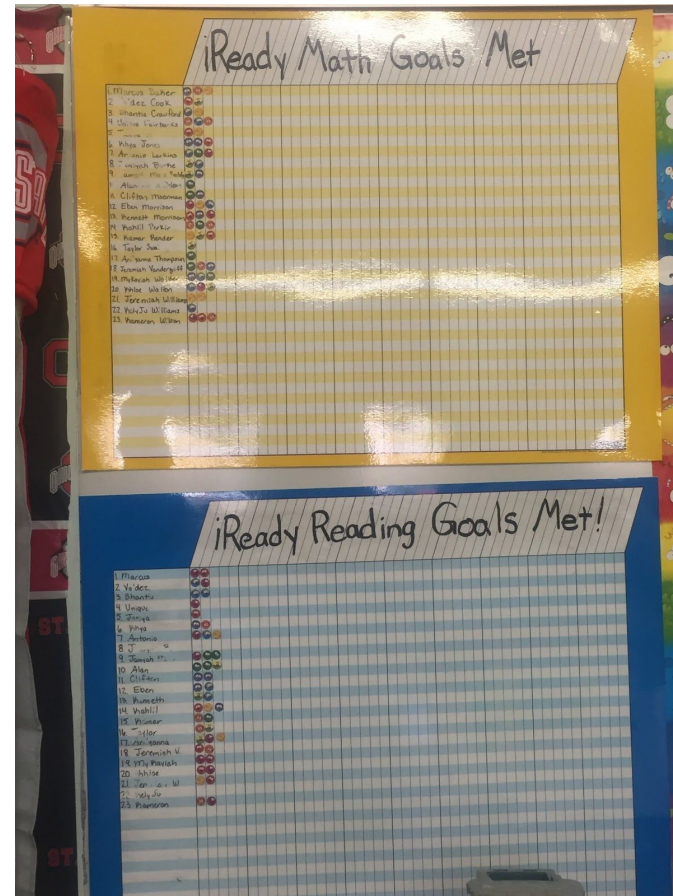

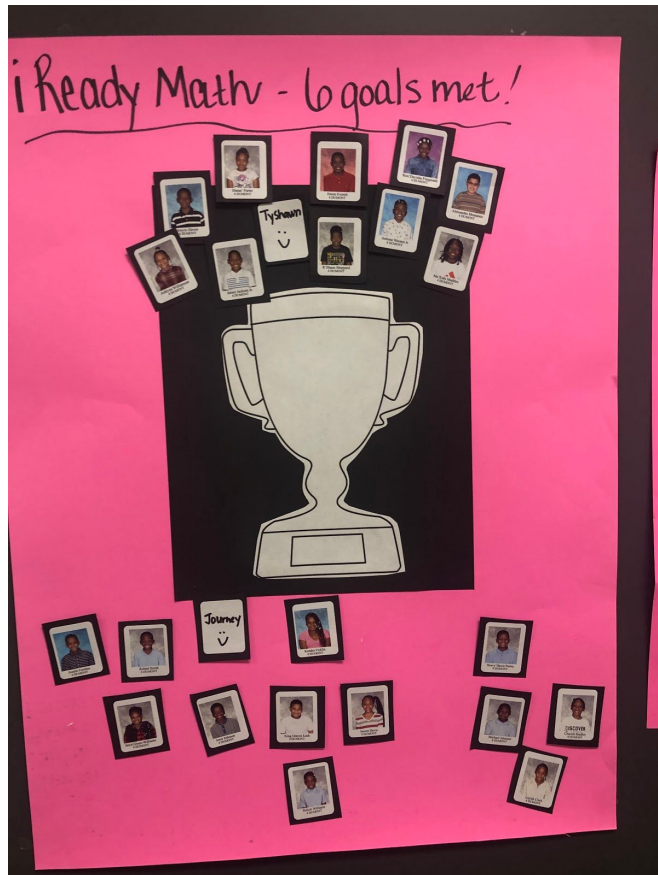

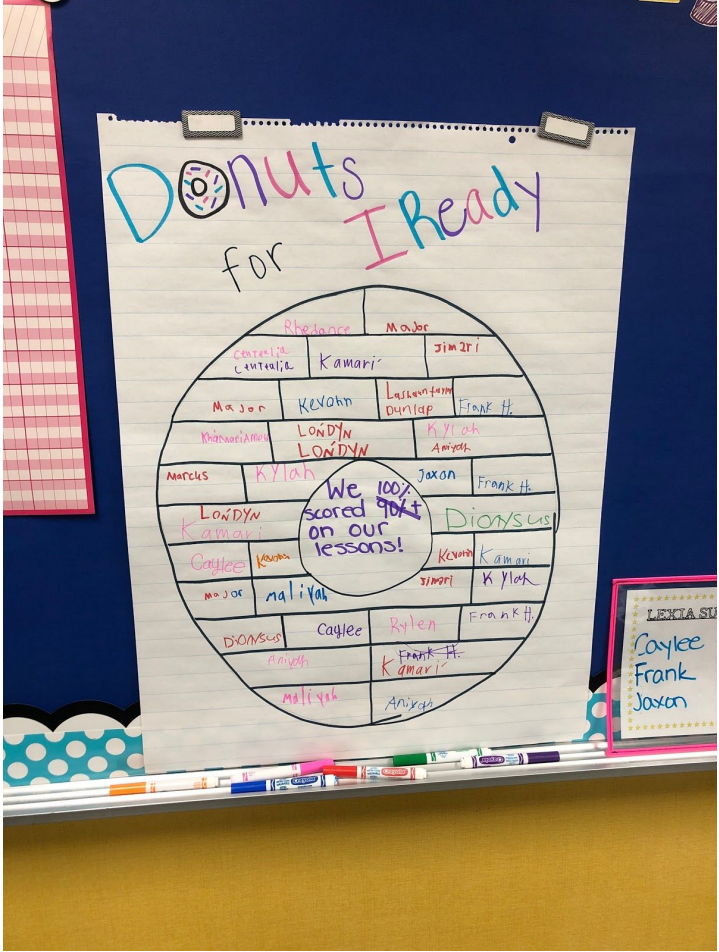

Students put up a sticker on their individual trackers each time they pass a lesson
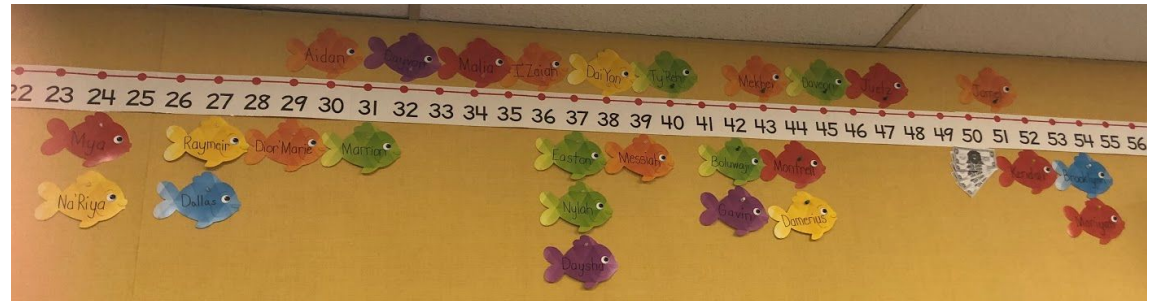

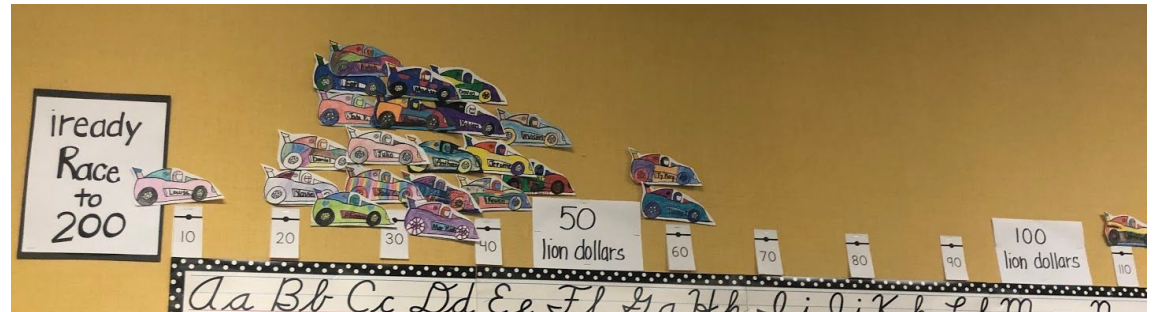

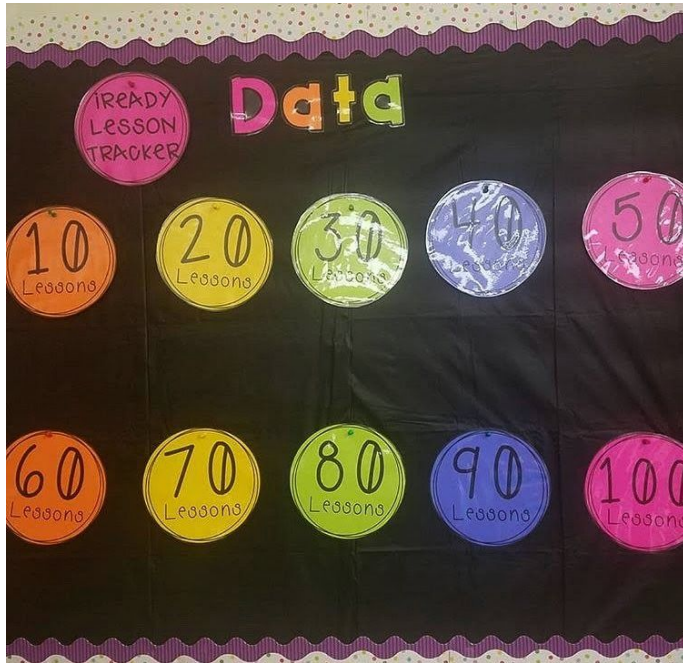

Daily lesson tracker – Students move their magnet or photo each time they pass a lesson

Weekly iReady lesson trackers – Students move their photo or earn a sticker each week they pass their iReady lesson goal

Students put a sticker or write their name when they pass a lesson at 100 percent

These are examples of ways to track how many lessons students pass throughout the year (i.e. "iReady Race to 200" "Swimming to 150")
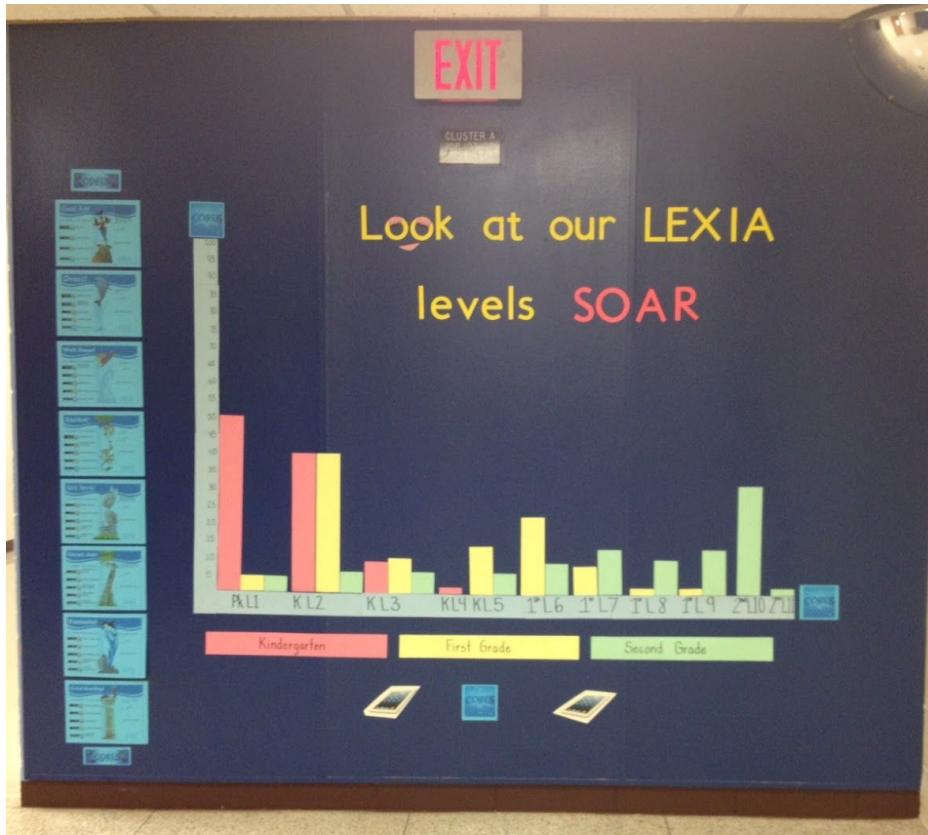

Lexia

Students created boats with their nicknames on them. When students level up on Lexia, they move their boat to the next level!
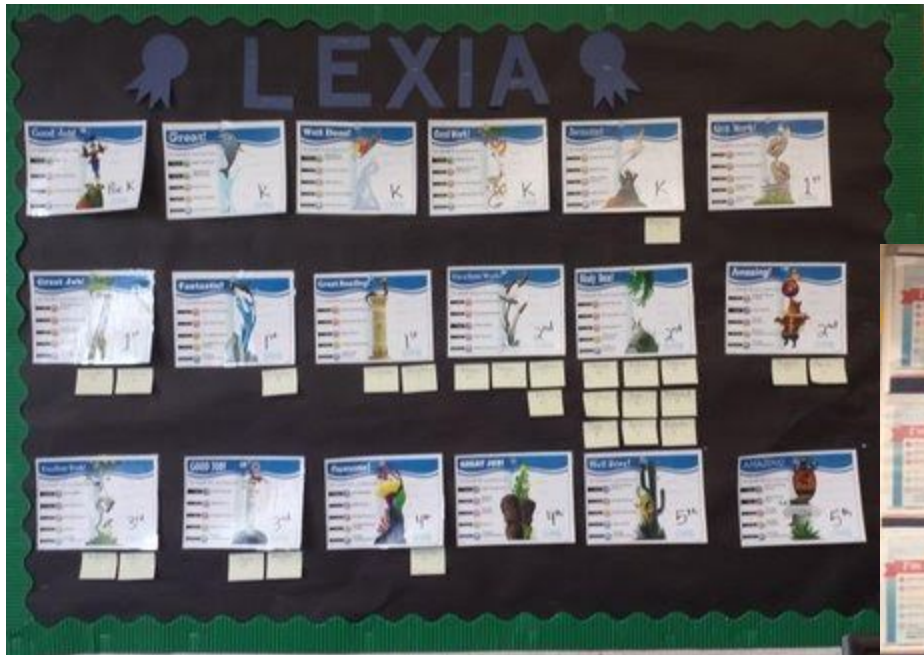

Example Lexia Level trackers – students movie their number or receive a sticker each time they level up
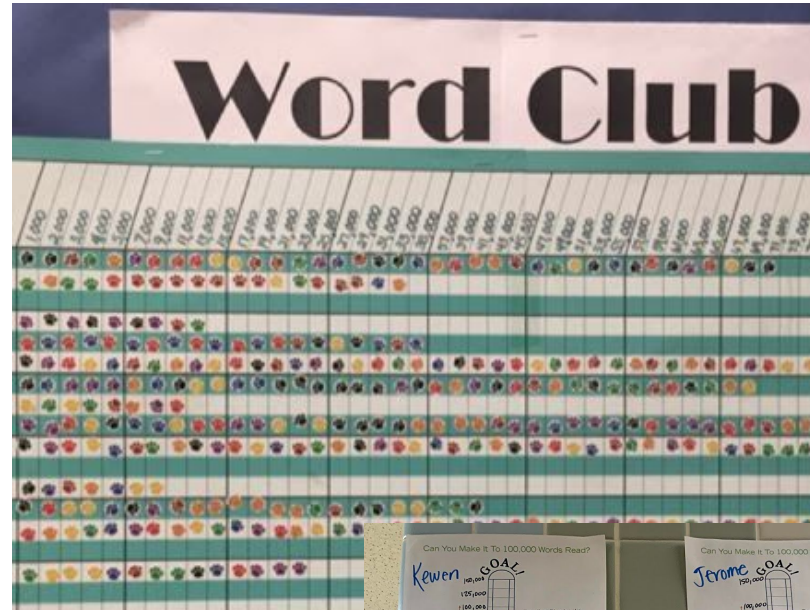

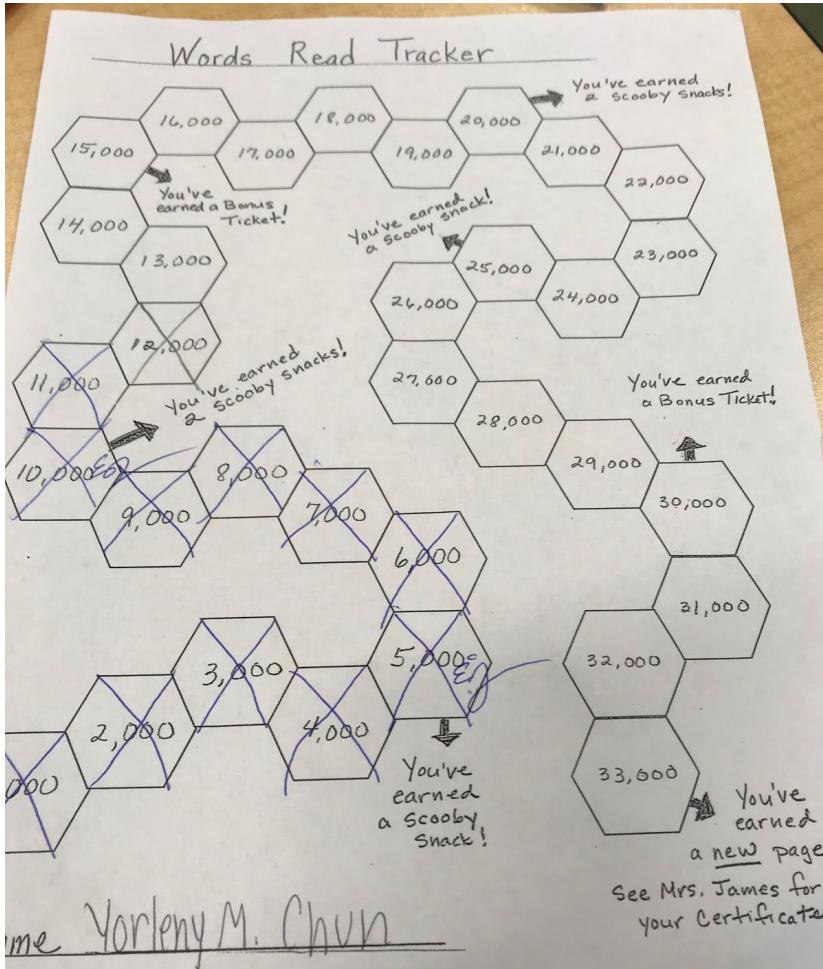

School–wide Lexia tracker

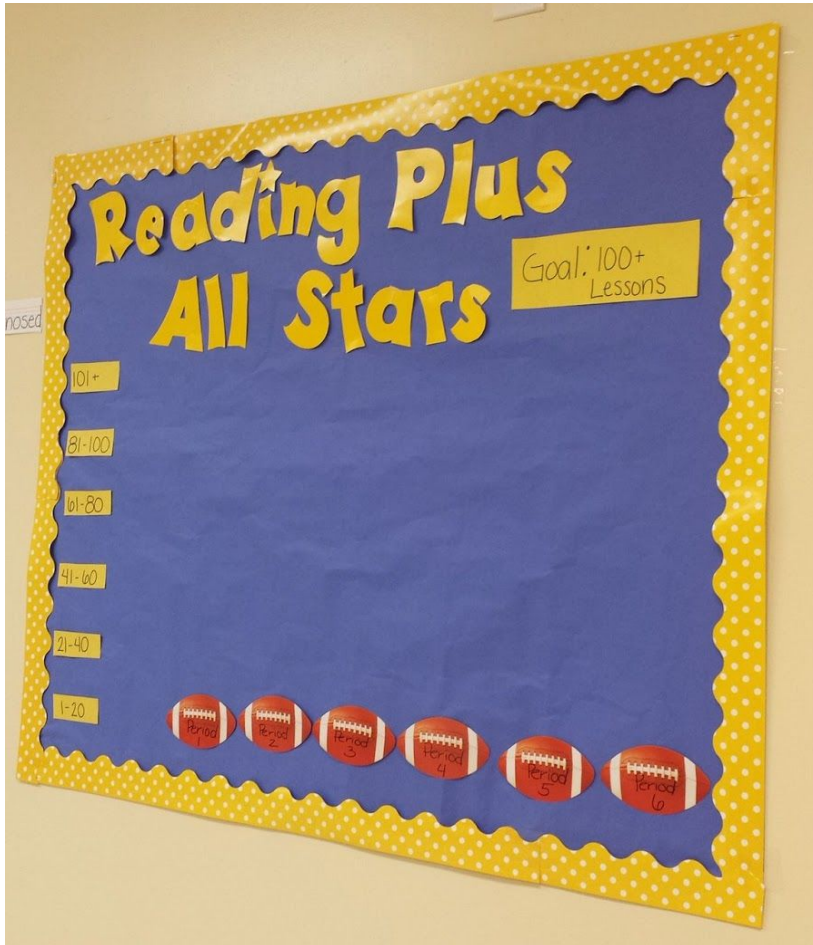

Individual Lexia tracker

Lexia Certificate Wall – print out and post Lexia certificates as students level up

ReadingPlus

Examples of ways to track how many words students have read throughout the year

Lesson tracker with a goal of one hundred lessons or more

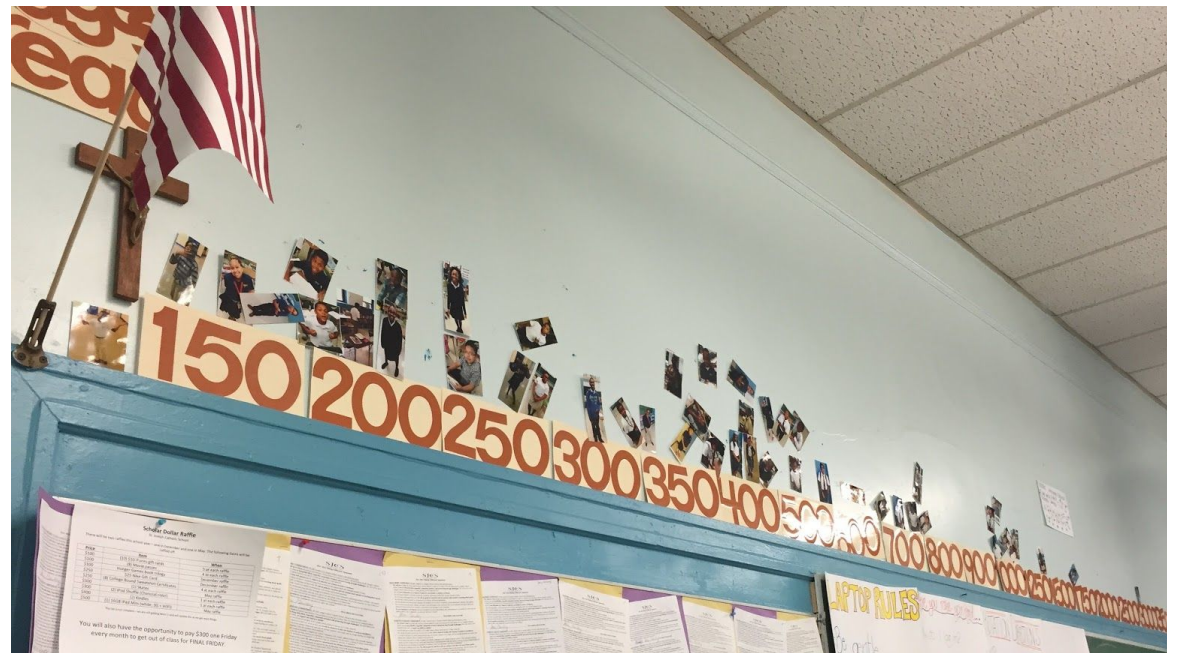

Tracker with lesson average and combo goals

Zearn

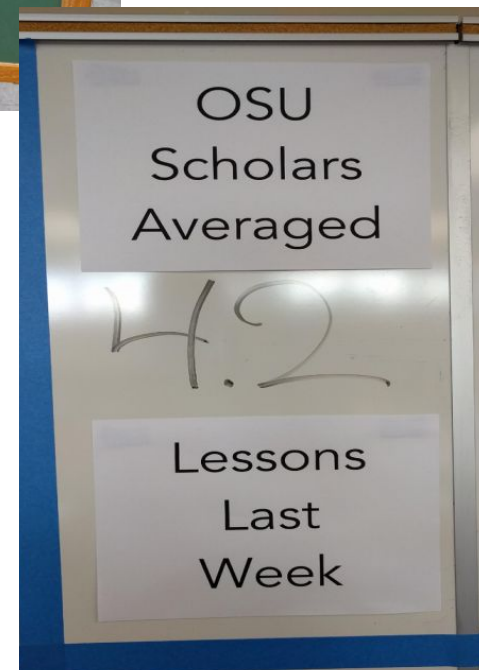

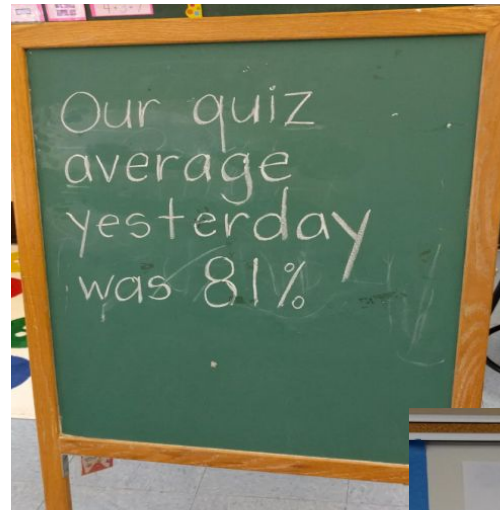

Lesson tracker by week with goal

Tracking missions (levels on Zearn) with student rockets

Achieve3000

Examples of how to track student Lexile level and Lexile growth throughout the year

T.T.M. GOAL...

6 Lessons Passed @ 80% or higher Per Week!

Last Week...

Avg. 4.18 completed lessons

$11 = 4.18$ lessons
$18 = 1.46$ lessons

Our quiz average yesterday was 81%

OSU Scholars Averaged

4.2

Lessons Last Week

Class wide tracking to focus on lesson average and average lessons passed by class
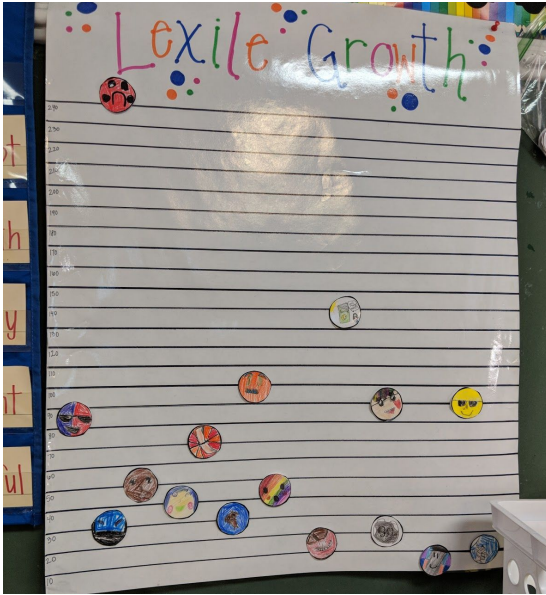

Example content provider bulletin boards: Achieve3000 bracket competition with rules (left) and year-long lesson tracker with parameters (right).

The graphs track lexile growth and individual lessons are tracked on the owls with a tally marks for every ten lessons passed at 75 percent or better

Students move their picture the amount of lexile growth they've made since the beginning of the school year.

Students move their basketballs as Lexile level increases

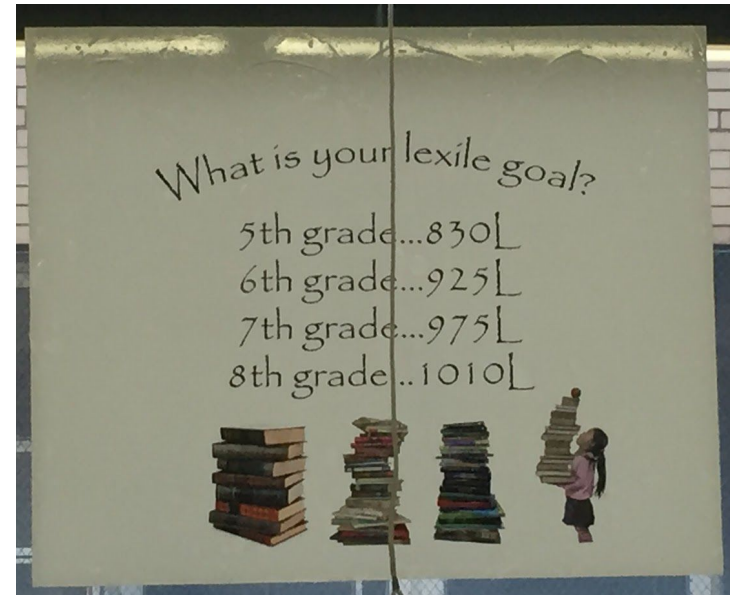

Chart to show students the connection between Lexile level and grade

Chart to show students the connection between lessons passed and average Lexile growth

Imagine Math

Example leaderboard – shows students with the most lessons passed

Lesson tracker – shows total lessons passed by each student

Students get a star for every two lessons passed.

Students get a star for every lesson passed.

Data Folder

Students keep track of their progress on content providers each week and overall progress
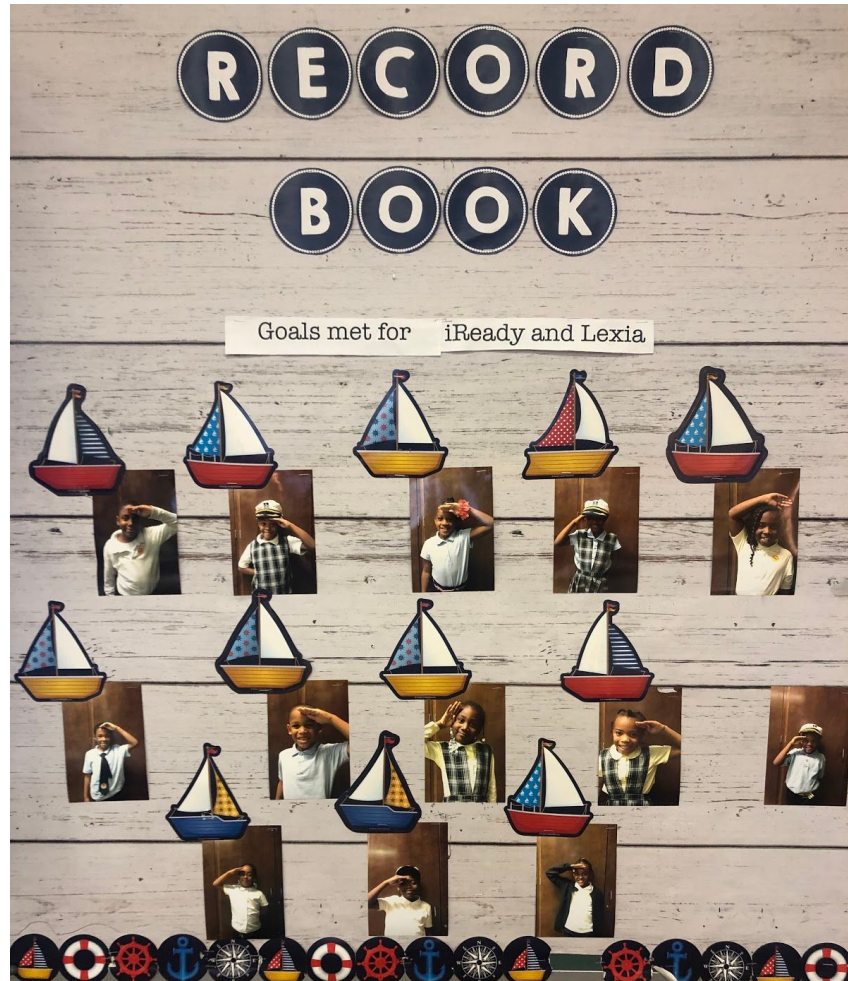

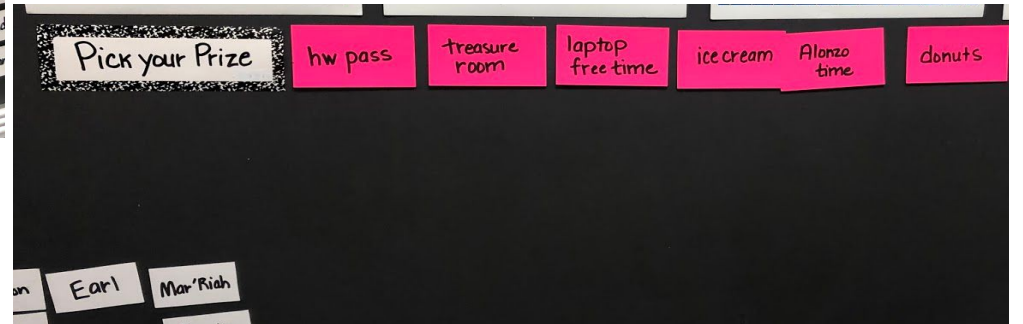

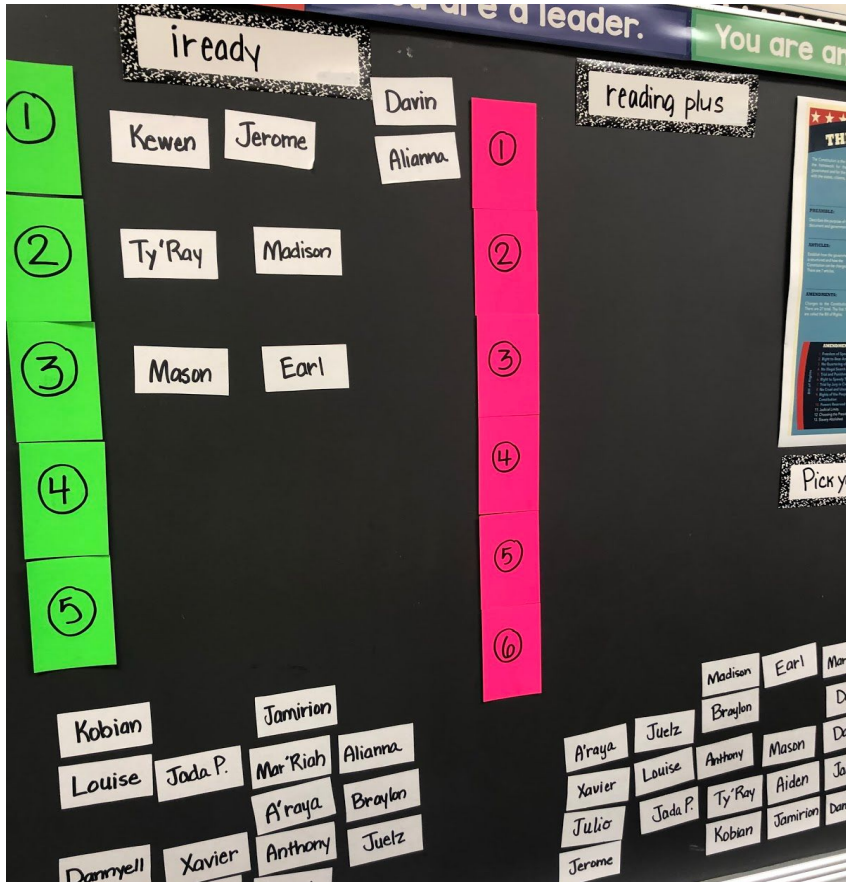

Weekly Lesson Tracker

Here are example trackers that are updated weekly to show student progress on lessons

Students receive a sticker for each lesson passed. When they meet their weekly goal, their picture is placed on the Record Book bulletin board.

Students move their magnets after they pass a lesson. After they meet their weekly goal, they move their magnet to the prize of their choice.

Year long lesson tracker

Here is another example of a way to track student progress throughout the year. Each student has an icon to move underneath total lessons passed.
